## About HealthAsyst

HealthAsyst® is an IT service and product company. It is a leading provider of IT services to some of the largest healthcare IT vendors in the United States. We bring the value of cutting-edge technology through our deep expertise in product engineering, custom software development, testing, large-scale healthcare IT implementation and integrations, on-going maintenance and support, BI & Analytics, and remote monitoring platforms. As a true partner, we help our customers navigate a complex regulatory landscape, deal with cost pressures, and offer high-quality services. As a healthcare transformation agent, we enable innovation in technology and accelerate problem-solving while delivering unmatched cost benefits to healthcare technology companies. HealthAsyst is now a Great Place to Work-Certified™ & our product has also been consistently recognized for high customer credibility by Gartner, Capterra etc.
